Final Score:

→ **SDA Commons:** Before Part 1: revisit your standard's Skinny at the SDA Commons. Confirm what 3.0 evidence actually required — then look at your work honestly.

PART 1 — THE STANDARD

What did this standard ask you to know or do?

Write it in plain language — not the code, but what it actually means for a real person.

Where do you think your Demo of Learning landed on the scale? Why?

Honest self-assessment. You are grading yourself — but you have to justify it.

My score:

What specific evidence in your Demo shows that score? Name it.

What would it have taken to score one level higher?

Be specific — what evidence or understanding was missing?

PART 2 — THE PROCESS

What was the most important thing you did in Week 2 (Dig) that helped you?

What feedback (from peers or Reese) changed your work most? What did you do with it?

If you ran this studio again, what would you do differently — and in which week?

PART 3 — THE LEARNING

What do you now understand about your Essential Question that you didn't in Week 1?

What question does this studio leave you with — something you would want to keep investigating?

What are you most proud of from this studio?

PART 4 — OWNERSHIP AND NEXT STUDIO

What is your current ownership level?

☐ Trailblazer (Level 1) ☐ Maverick (Level 2) ☐ Phoenix (Level 3)

Are you applying to move up a level?

☐ Yes — see my case below ☐ No — staying at my current level

If applying to move up: make your case below.

Use specific evidence — scores, work habits, independence. Vague answers will not be considered.

What standard do you want to prioritize next studio? Why?

→ **SDA Commons:** Browse next studio's standards at the SDA Commons before answering — knowing what the standard requires will help you make a better choice.
